(11) Ordnance QUAL/CERT OJT Forms

1. Purpose. To establish policies and procedures for the management and administration of the commands Qualification/Certification Training Program as required by reference (a) and (b).

2. Discussion. The goal of this program is to achieve and maintain the highest level of ordnance handling proficiency and standardize training requirements for Naval Air Station Lemoore. The training will consist of in-service formal lectures, On the Job Training (OJT) and if applicable Computer Based Training (CBT). The success of the training program is gauged by the ability to provide quality results in the handling, assembly, issue, receipt, transportation and inspection of all applicable ordnance items.

3. Background. The complexity of the general and specific required knowledge related to the command's mission necessitates a structured and dynamic qualification/ certification program. Reference (a) directs that amplifying directives be developed to promulgate a training plan and corresponding documentation to support the qualification/ certification program. Weapons, Security and Organizational Maintenance Department (OMD). Departments will adhere to this instruction in order to obtain and maintain the highest possible skill levels.

4. Action. All personnel assigned to Weapons, Security and OMD Departments that handle explosives onboard NAS Lemoore shall thoroughly familiarize themselves with references (a), (b) and this instruction. Specific responsibilities are as follows:

a. Weapons Officer

(1) Be designated in writing by the Commanding Officer as the command's Explosive Handling Personnel Qualification Certification Board Chairman.

(2) Exercise overall responsibility for the command Qual/Cert Training Program.

(3) Recommend in writing, to the Commanding Officer, qualified E-6 or above or civilian equivalent personnel as designated board members.

(4) Ensure all documentation for the qualification/ certification is completed prior to any personnel handling ordnance on board the facility.

(5) Maintain the master qualification/certification forms, enclosure (1) and AA&E screening forms, enclosure (2), for each assigned individual Board Member and sample signature form, enclosure (3).

(6) Conduct certification boards as required.

b. Division/Ordnance Officer LCPO/CPO/ equivalent civilian personnel.

(1) Monitor the department Qualification/Certification Training Program for compliance with references (a), (b) and this instruction.

MAR 15 2001

(2) Conduct spot checks, at least quarterly, on all ordnance training records to ensure they are maintained per this instruction. Document results on enclosure (4). Verify adequate training is being conducted, and accurate documentation is being maintained to substantiate current certification and continuous proficiency.

(3) Ensure all basic training requirements are met prior to recommendation for certification and personnel maintain adequate levels of training to handle ordnance/explosive devices.

(4) Review training records prior to recommendation for certification to ensure documentation substantiates required level of certification.

(5) Using enclosure (5), recommend to the Board Chairman, personnel who are ready for certification/ re-certification or upgrades.

(6) Verify completion and accurate documentation of enclosures (6) and (7) prior to conducting qualification/ certification boards.

c. Division LPO

(1) Ensure that newly assigned personnel are indoctrinated in the requirements of reference (a), (b) and this instruction.

(2) Establish ordnance training records, as per enclosure (8), for each individual assigned.

(3) Ensure formal training lectures, enclosure (9), and the Standard Operating Procedure (SOP's) listed in enclosure (10) are current and used when required as a supplement for ordnance proficiency training.

(4) Ensure OJT documentation supporting the qualification/certification program is conducted by research and under the direct supervision of a board member.

(5) Ensure a hazard control brief is conducted prior to starting any new operation and every 30 days for a continuous operation utilizing applicable Standard Operating Procedures (SOP's), enclosure (10)..

MAR 15 2001

(6) Submit monthly training plan inputs to the department training coordinator.

d. Department Training Petty Officer

(1) Assist supervisors in accountability and administration of ordnance training records.

(2) Ensure all formal training lectures and materials are made available upon request and are current.

(3) Assist the Division LPO in the review of all records prior to scheduling qualification/certification boards.

(4) Ensure formal training and Standard Operating Procedures lectures are documented using enclosures (9) and (10).

e. Department Personnel

(1) All ordnance certified personnel will be held responsible for the proper documentation of their own OJT at the conclusion of each working day in which ordnance training was performed and/or ordnance operations were conducted utilizing enclosure (11) as applicable.

(2) Each individual should make every effort to advance their certification level by achieving qualifications as soon as practical. There is no set standard of certification by pay grade, however knowledge, maturity and professionalism are key elements in achieving the next higher certification level.

f. Quality Assurance. Review all department training records during quarterly audits for compliance with reference (a) and this instruction.

6. Training

a. All personnel who are required to handle explosive material or devices will be afforded every available training opportunity prior to certification/re-certification. This training shall encompass all applicable work task codes, weapons and explosive devices required by each Department. Although completion of formal schools is not mandatory prior to certification, they are the best resource available for weapons handling training. Attendance of the appropriate school is

MAR 15 2001

strongly encouraged for all explosive handling personnel, including the completion of applicable Explosive Safety Computer Based Training Courses (CBT).

b. Individuals receiving training or preparing to be certified at a higher level, must document "IN TRAINING" (IT) as appropriate (i.e., TL(IT), QA/SO(IT)). A qualified and designated certification board member must observe and document the next higher level task at least once prior to the individual being recommended for certification upgrade.

c. Initial certification of a board member to cover new weapons capabilities will be accomplished by the boardmember, and team members if possible, receiving formal on the job training covering all applicable work task codes. The board members certification form will be annotated with the word "INITIAL" in the board observer block. The board member will sign in the individual block. The boardmember may certify anyone else who receives OJT covering the new capability. A copy of formal training will be maintained in the certification folder.

7. Training Records. In order to ensure access by authorized personnel, and to conduct audits/inspection as required, training records shall be maintained within the department and will not be maintained or held by the individuals. The format of the training record will be standardized throughout the command per enclosure (8).

8. Newly Assigned Personnel

a. Personnel certified from a previous command may be certified IAW reference (b).

b. All personnel must complete basic prerequisites for ordnance certification as applicable, enclosure (1), (2) and (6).

9. Review Responsibility. The Weapons Officer Will review this instruction annually, or as required.

**REPORT OF SCREENING FOR PERSONNEL ASSIGNED
AA&E SECURITY RELATED DUTIES**

Per OPNAVINST 5530.13 series, before persons are assigned AA&E security related duties, whether full time or collateral, they will be screened to ensure they have maturity, good judgment, trustworthiness, and positive attitudes toward the DON and national security. Such screening will include any ordnance handling personnel or personnel authorized unescorted entry to AA&E spaces. A designated officer will examine service records of those personnel being screened and discuss the duties to be assigned with the person or the person's supervisor.
